Community Development and Research Society

The mandate of SWOVA is to develop solutions to prevent violence and abuse against women and children through education, community development, and research. In partnership with our school district we offer the award winning Respectful Relationships program in schools. We consult with and train other communities to offer school-based violence prevention workshops. There is a resource library available free of charge to the communities in the Southern Gulf Islands. We coordinate community events on December 6th, International Women’s Day, and Prevention of Violence against Women month. We create, publish, and distribute materials on issues related to prevention of violence against women and children including our newsletter published twice a year. We serve communities of the Southern Gulf Islands.

“Transitions” supports and enhances the programs and services of Island Women Against Violence (IWAV). Purchases and goods donated to the store all go toward making crisis and support services available for women and their children in the Gulf Islands. The store also provides shopping credits to our transition house residents and provides them with small household items they may need when furnishing a new home. Volunteers are always welcome.
